CONGRATULATIONS TO THE CLASS OF

2020

HCSO Offers Summer Food Service Program

Building upon its successful food distribution effort while buildings were closed due to coronavirus, the Hannibal Central School District will continue offering meals to its students throughout the summer.

The summer food service program will be held every Tuesday, from 9-11 a.m., beginning July 7 and ending Aug. 18. Pre-registration is required one week in advance.

To register for the program, please visit the news section on the homepage of our website, www.hannibalcsd.org. All the information, including a form and survey, will be available by clicking the "Summer Food Service Program" headline.

Community Food Distribution a Success

The Hannibal Central School District, in partnership with the Food Bank of CNY is hosting fresh food distributions for the community periodically, on a first-come, first-served basis.

During each distribution, HCSO residents are asked to pull into the Fairley bus loop and stay inside their vehicle while volunteers bring the box of food to the vehicle's trunk. For more information about upcoming distribution days, please visit the district's Facebook page: facebook.com/hannibalcsd.

Transportation Director Rob Pakish is one of the many HCSO employees who help during the food distribution efforts.

MEET THIS YEAR'S VALEDICTORIAN AND SALUTATORIAN

Valedictorian Kristin Kellogg

Although Hannibal High School student Kristin Kellogg faced challenging times during her senior year, her dedication to her studies never wavered on her journey to becoming the class of 2020 valedictorian.

"I went through a lot during my senior year and I couldn't have done it without my teachers and classmates," Kellogg said, noting that her father passed away in October. "I stayed strong because of their support. The entire Hannibal Central School District was there for me whenever I needed help, and that helped shape who I am."

With the support of the HCSD community, Kellogg was driven by her ambition to excel academically. She was an active member of the school's Oswego County Academic Youth League team and a National Honor Society member.

In the fall, she plans on living at home and attending SUNY Oswego to pursue a degree in zoology. Eventually, she would like to continue her studies and earn a doctorate degree in veterinary science.

"I want to work as a veterinarian in a zoo," Kellogg said. "After I gain experience, I want to open up my very own rehabilitation center for wildlife."

With such lofty goals, Kellogg said she was looking forward to the next chapter and making the most of every day.

"Life is short and unpredictable; don't let anything stand in the way of your happiness," she said.

Kristin is the daughter of Stephanie Kellogg and the late Cory Kellogg.

Salutatorian Savannah France

When Hannibal High School senior Savannah France learned she was the class salutatorian, she knew it was the perfect storybook ending; one the aspiring book editor has envisioned for years.

France has always been interested in the written word and will pursue her passion as an English major next year at SUNY Oswego. She said she has always been unique, creative and imaginative, and she is looking forward to tapping into those qualities in college.

For France, her success in the classroom has carried over into extracurricular activities as well. She was active in the school's Purple Gallery performances, participated in the Oswego County Academic Youth League, and was a member of the National Honor Society.

"The school district has offered many opportunities that have helped me succeed in becoming who I am today," France said.

She also noted that her mother, Melissa France, was one of the reasons for her success.

"I definitely attribute my success to my mom," France said. "She's always been there for me and always encourages me."

As France prepares for her future, she took some time to reflect on her years as a Warrior and offered her classmates some advice as they embark on new adventures.

"Whatever you choose to do after high school, make sure that it is something that will make you happy," she said. "You should enjoy life and take support from those you're close to."

Congratulations to the Members of the Class of 2020!

Freshmen Eligible for Early College High School- Health Sciences Program

Incoming Hannibal High School freshmen have been given the opportunity to apply to an Early College High School- Health Sciences program where they could simultaneously earn both high school and college credits.

Participation in the program, set to begin this fall, will also put a handful of HHS students on the pathway to local employment in the health services field through Oswego Health or Oswego County Opportunities upon graduation. Once Hannibal students apply and are accepted into the program, they will earn upwards of 38 credits toward an associate's degree at Cayuga Community College. The ECHS program is offered at no cost to HHS students and their families.

Throughout the course of study, the selected HHS freshmen would attend school in Fulton in the mornings, as the program is a collaborative effort among the Hannibal, Mexico and Fulton school districts. HHS students who participate in the ECHS program will still be afforded the extra-curricular activities at their home school.

As participation in the program progresses, HHS students will eventually attend in-person classes at CCC's Fulton campus and become immersed in the college experience. Future CCC courses will include: personal health, career and life planning, human biology, lifespan, and anatomy and physiology, among several others.

Future related job options from the program and additional education could include: medical and clinical laboratory technologists, radiation therapist, respiratory therapist, registered nurse, occupational therapy assistant, physical therapy assistant and licensed practical nurse. Skill-building and career fair participation also will play pivotal roles in the program to ensure student success.

Additional benefits of the ECHS program include: on-site job visits, mentoring, job shadowing and potential paid internships through Oswego Health. OCO has agreed to delve into its networks to make similar connections for enrolled students.

Interested incoming HHS freshmen who would like to apply to the program should Contact DMK Principal Shawn Morgan at (315) 564-8120.

Thank you, Retirees!

We would like to congratulate this year's retirees and thank them for their years of service to the Hannibal Central School District. Fairley Elementary teachers Rhonda Koskowski (left) and Joan Bergan-LaRock (right) were among the district's retirees this year. Congratulations also go to special education teacher Denise Cealie who announced her retirement as well.

A MESSAGE FROM THE SUPERINTENDENT

Every July, this edition of the newsletter serves as a place to celebrate our students' accomplishments throughout the school year. While this year's pandemic may have restricted our in-person ceremonies, that doesn't diminish the extent of our students' achievements. Their perseverance, dedication and ability to adapt to a new way of life, and learning, is cause for celebration.

Students, parents, teachers, staff and community members all faced this worldwide challenge with the determination of Warriors. We have encountered adversity and overcome it. We have witnessed students uniting for virtual concerts, art shows and class work. We have witnessed people helping people. We have witnessed what makes our community wonderful.

Take that sense of community pride, personal pride and Purple Pride with you as we continue to move forward amid uncertain times. We are incredibly proud of our students for everything they have accomplished. We are stronger together!

Sincerely,

Christopher A. Staats
